### PROFESSIONAL SUMMARY

Hi, TARI, is a software engineer with 2+ years of work experience in Full-Stack development and designing and developing user-friendly web applications. I have an understanding of mobile development, Data science and Machine learning. Coupled with that, I am proficient in JavaScript and python with a number of frameworks of both programming languages. I love machines and architecture and just computers in general. I am quite inquisitive and always want to know and learn more. I am dedicated in my work. I value time and I try to give my best at the earliest. Respect is also a core principle that I have acquired which will go a long way in developing relationships. I enjoy video games and basketball.

### PROFESSIONAL EXPERIENCE
